Directions (Q. 16-20) : In each question below is given a group of numbers/symbols/ followed by five combinations of letter codes numbered (A), (B), (C), (D) and (E). You have to find out which of the combinations correctly represents the group of numbers/ symbols based on the following coding system and the conditions and mark the number of that combination as your answer.

Numbers/ Symbols 7 3 & 6 % 2 # 8 4 @ 1 + 5 \$

Letter Code S H P W L D K J X Z Q T N F

Conditions :

- (i) If the first element is a symbol and the last element is a number, then the codes for both are to be interchanged.
 - (ii) If both the first and last elements are symbols, then the last element is to be coded as the code for the first element.
 - (iii) If the group of elements contains only one symbol, then that symbol is to be coded as A.

Directions (Q. 21-25) : Study the following information carefully and answer the given questions.

Eight friends L, M, N, O, P, Q, R and S are sitting around a circle facing the centre. There are equal number of males and females in the group. No. two females are immediate neighbours of each other. N is a male and N sits third to the right of R. O is a female and O is not an immediate neighbour of N. P sits second to the left of O. S sits fourth to the right of L and S is not an immediate neighbour of R. Q is a female.

21. What is Q's position with respect to O ?
 (A) Immediate right (B) Third to the right
 (C) Third to the left (D) Fourth to the left
 (E) Fifth to the right
22. If all the eight friends are made to sit alphabetically in the clockwise direction starting from L, positions of how many will remain unchanged (excluding L) ?
 (A) None (B) One
 (C) Two (D) Three
 (E) Four
23. Which of the following is true about M ?
 (A) M sits third to the right of Q
 (B) M sits second to the right of L
 (C) M is a male
 (D) M sits to the immediate left of O
 (E) None of these
24. Which of the following represent the females in the group ?
 (A) O, P, Q, S (B) Q, R, P, O
 (C) Q, L, M, O (D) O, M, Q, R
 (E) None of these
25. Four of the following five are alike in a certain way based on their seating positions in the above arrangement and so form a group. Which is the one that **does not** belong to the group ?
 (A) LO (B) NL
 (C) OP (D) PQ
 (E) MS

Directions (Q. 26-30) : In each of the questions below, two statements are given followed by two conclusions numbered I and II. You have to take the two statements to be true even if they seem to be at variance from the commonly known facts and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Give answer :

- (A) if **only** conclusion **I** follows.
 (B) if **only** conclusion **II** follows.
 (C) if **either** conclusion **I** or conclusion **II** follows.
 (D) if **neither** conclusion **I** nor conclusion **II** follows.
 (E) if **both** conclusion **I** and **II** follow.

ENGLISH LANGUAGE

Directions (Q. 71-78) : Read the following passage carefully and answer the questions given below it. Certain words are printed in **bold** to help you to locate them while answering some of the questions.

Once upon a time, there were three brothers. They were all very clever and one day decided to make a fortune by using their powers of reasoning and logic. As they walked to the nearest city to look for work, they saw some footprints on the mud road. As they stood looking at the marks, a merchant came rushing towards them. 'Did you see anyone go by this road?' He asked in **Panic**. The first brother looked **closely** at the prints and said, 'Yes, a large camel.' The second said, 'the camel could see with only one eye.' The third, who had been looking further down the road, said, 'the camel was carrying a woman and a child on its back.'

Now the merchant was furious and shouted, 'You have kidnapped my wife and child. Come with me to the king.' The brothers could not get him to reason out and the four men ended up in the king's court. 'Hmm' the king said, after he had heard the entire story. 'If you three claim to be so clever, let me set a task for you. I will place before you a wooden box which will be locked. You will have to tell me what it contains without looking inside.'

The three brothers agreed, and soon the king's men placed before them a stout wooden box, **firmly** shut. The first brother said immediately, 'It has something round inside.' The second said, 'It is a pomegranate.' 'An unripe pomegranate,' added the third, 'The box was opened and indeed, inside there was an unripe pomegranate.'

The king now asked them for an explanation. The first man said, 'When your servant was bringing the box, I heard something rolling inside. That meant there was a round object in it.' The second man said, 'I saw your servant coming from the pomegranate orchard, so I knew he had placed a pomegranate in the box.' 'And this is not the season for pomegranates, so it had to be an unripe one,' commented the last brother.

The king had now witnessed the brother's powers of observation and was curious to know how
